

## Wellbeing/Quiet Area

This area is situated in the middle of the school and is approx. 3m x 6m.

Together we are hoping to bring this space to life and make an amazing new wellbeing/quiet area. We want to create a safe place for the children to go to if they need some time out or somewhere to think.

To give us some help and get everyone's input, we are running a competition. We are looking for any budding gardeners & designers who would like to help design the new area, we want to make it the biggest and best we can!

We will have 1 winner for the adults and 1 for the children. We are so excited to see what designs and ideas everyone comes up with. Please can all designs be sent into our postbox in the office by Friday 28<sup>th</sup> May.

Our fundraising this year will be put towards this lovely area but if anyone has anything they would like to donate: benches, plant pots, flowers etc. we would be very grateful.

We thank you for your continued support and we cannot wait to bring all your amazing ideas to life, to create a fantastic space for all the children to enjoy!
